WEEKLY REPUBLICAN-1860
DAILY PUBLIC LEDGER-1860

A SUGGESTION

The very day this war is o'er—
Don't let us lose a minute—
But get a strong and lofty ego
And put the Kaiser in it.

The Crown Prince, too, and Hindenburg;
All sporting iron crosses,
And thrown on bombs or shrapnel shells
Three military bosses.

Each one dolled up in uniform,
With stiffly braided collar—
Then tour the country with the lot;
Admission: Half a Dollar.

And when we reach a tidy sum.
One worthy of this nation,
To France and Belgium slip the coin
For rehabilitation.

MARY MAXWELL.

IMPORTANT K. OF P. NOTICE

The regular weekly meeting of Limestone Lodge No. 36 K. of P. will be held at Castle Hall this evening at 7 o'clock, at which time two candidates will be initiated into the ranks of Esquire. All members are requested to see these two men. Page Carl Dodds and Page Walter Slinger, ride the goat. There will be an old time team to help make things interesting, so be sure to be on hand.

R. M. NEWELL, C. C.
B. H. Greenlee, K. R. S.

NOTICE TO THE PUBLIC

On and after January 1, 1918, all sales of ice to be cash.

W. P. NEWDIGATE.

Butter fat 55 cents a pound at the Mayville Model Creamery this week.

NOTICE TO WATER WASTERS

There are a number of water consumers in the habit of letting hydrants and other fixtures waste water almost constantly, but mainly all night, during cold weather. These guilty ones are endangering the needed steady water supply, and are apt to deprive the good citizens, who are using water economically from a steady supply. Coal supply very low and new supply difficult to secure. All consumers are requested to practice extreme economy in the use of water. River conditions very serious for the safety of the intake. We are not sure that the supply will be very regular—and the shutting off services of water wasting consumers without further notice will now be the only remedy. Upon examination of large pump this morning a discharge pipe casting was found broken. A new one must be made. While this is being done, the small pump will have to run. The quantities of water used lately can't be supplied by this small pump.

MARYVILLE WATER COMPANY.

PUBLIC WOOD CHOPPINGS ARE CONDUCTED IN BROWN COUNTY SO SCHOOLS MAY BE REOPENED

Georgetown, Ohio, January 10—The Brown County Fuel Administrator and the County Coni Commission, at a joint meeting at the courthouse this afternoon, issued an order permitting the schools to reopen next Monday. Many will use wood exclusively for heating purposes. Public wood choppings are being conducted in all parts of the county and farmers are donating the wood.

NOTICE

All persons who have claims for exonerations from taxes will please appear before the County Clerk before next Tuesday as that will be the last day.

DELINQUENTS REPORTED

County Exemption Board Furnishes Chief of Police Ort With Names of Young Men Who Have Failed to Return Questionnaires in Prescribed Time.

The following order has been furnished Chief of Police Ort by the County Exemption Board:

To Harry A. Ort, Chief of Police: There is hereby certified the following list of names and addresses of persons who have been duly and legally notified to file with the local board the questionnaire required by the regulations promulgated by the President of the United States under authority granted by act of Congress approved May 18, 1917, and who have failed to file such questionnaire.

Under authority of Section 6 of the act of May 18, 1917, and by Section 130 of selective service regulations, you are required immediately to visit in person or through deputies each person whose name appears on this list, to locate such persons if possible and bring them before this local board. If you are unable to produce such persons within five days of the date hereof, exclusive of Sunday and legal holidays, you shall report to this local board all information you may have obtained concerning such delinquent registrants.

Further information and description concerning these persons is available in the records of this local board.

SHERMAN ARN,
Member of Local Board.

FULL-TIME HEALTH OFFICER

Ideal work for the prevention of sickness is only possible in counties where there is a carefully selected and trained health officer who is so supported financially, as has been true from time immemorial of judges and similar court officials, that he can give up the practice of medicine and other business and devote his entire time to the protection of health and life. And the highest principles of both economy and humanity demand that such an officer be provided for Mason county.

It is easy to see why this is true. In Kentucky the vital statistics returns prove that preventable sickness and deaths cost the people \$29,816,378, for the average year, more than four times the total annual revenue of the state, and this loss was about equally distributed to all the counties according to population. In the face of these figures, made public over and over again, the people of the health officer in most counties run from nothing to \$50,000 to \$400,000 a year. For this he is expected to look after the health interests of from 8,000 to 40,000 widely scattered people, neglect and often lose his practice, incur enemies and often be exposed to personal abuse or violence, and then collect the pittance of a salary.

Is it any wonder that county health work is very often a failure. In spite of the liberality of the State in placing laboratories and other scientific aids within reach of every family, and the earnest desire of every doctor that each family shall have these aids for the prevention of sickness, every citizen and family should have these facts repeated to them until they understand them and realize that a Full Time County Officer is the best health investment any county can make.

MCHENRY TO GET TRY-OUT WITH REDS

The Manchester (O.) Signal says: Austin McHenry, of Blue creek, this county, will be given a try-out with the Cincinnati Reds this season. McHenry made his professional debut with the Portsmouth team of the Ohio State league. During the fore part of the last season McHenry was a member of the Milwaukee club and he hit hard. He experienced a slump and according to McHenry, Danny Sbay, who then was managing the Milwaukee team began to "ride him." McHenry begged the Brewers' management to send him to some other team, and he was let go to the Peoria club, with which he finished out the season. McHenry lives in Adams county, Ohio. He hopes to make good under Christy Mathewson's watchful eye.

Mrs. Charles Biggers of Fourth street, left, Thursday for Atlanta City, to visit her daughter, Miss Bell Biggers.

PARKER-SCHWEICKART

Former Maysville Young Lady Married at Georgetown Sunday to Prominent Young Man of That Place.

The Georgetown (O.) News-Democrat contains the following item of much interest to friends of the contracting parties here:

A pretty home wedding was solemnized in Georgetown Sunday afternoon at the beautiful home of Mr. and Mrs. L. C. Parker, when their eldest daughter, Lucille, became the bride of Mr. Raymond C. Schweickart. The home was artistically decorated with potted plants, pink roses and carnations, pink being the predominating color. The bride was attired in a gown of white lace and satin and carried a beautiful bouquet of La France roses. Her maid of honor, Miss Mabel McBeth, was handsomely attired in a gown of pink georgette and wore a corsage bouquet of pink rosebuds. At 2 o'clock, to the strains of Mendelssohn's wedding march, played by Miss Mary Margaret McKibben, the bride and maid of honor descended the staircase, the bride, led by little Miss Helen Parker, acting as flower girl, was met by her father, who gave her in marriage to the groom, who was attended by Tyree Neu, who acted as best man. The marriage service was impressively performed by Rev. John G. Quinlan, the double ring ceremony being used. Delightful refreshments were served, after which the bride and groom, amid pleasant farewells, left for a short wedding trip, after which they will reside in Maysville, where the groom has a position. The bride is the eldest daughter of Mr. and Mrs. L. C. Parker, is a graduate of the Maysville High School, and is an accomplished musician. The groom, an exemplary young man, is the only son of Mr. and Mrs. August Schweickart, and is a graduate of the local high school. The best wishes and congratulations of their many friends go with them.

NO G. O. P.

On Big Committee—Thirteen Members of House of Representatives to Compose Rules Committee.

Frankfort, Ky., January 10—Thirteen members of the House of Representatives, all of whom are Democrats from the nine Democratic congressional districts of Kentucky, were named last night by Speaker Robert T. Crowe to compose the Rules Committee of the House during the present session of the General Assembly. This is the most important committee in the House, and in addition to having charge of all bills during the last ten days of the session the committee also will assist the Speaker in selecting the members of the other sixty-five committees to be named between now and reconvening of the House of Representatives next Monday.

No reason was assigned by the Speaker for not placing any Republican member of the House on the important Rules Committee, except that the minority party was not represented on the committee at the last session, of which he was not the Speaker.

Lieutenant Governor James D. Black tonight that the personnel of the standing committees in the Senate likely will be announced by him today. He said he had been hard at work all during yesterday and last night in an effort to prepare the committees, but had found it somewhat harder than anticipated because of the new members and his inability to ascertain what committee appointments they desired.

BOARD OF DIRECTORS

Of Chamber of Commerce Meets and Transacts Some Very Important Business.

A meeting of the Board of Directors of Chamber of Commerce was held in the committee room yesterday morning at which time much important business was transacted.

The following applications were received and elected to membership:

Phillips & Co., Albert Day, H. C. Polkitt, Omar Dodson, A. O. Taylor, Roy Giehls and G. P. Lambert.

The Board of Directors voted

Messrs. E. D. Newell, J. M. Culhoun and H. W. Cole honorary members

with remission of dues for the period of the war.

While this was a departure from the custom they felt that it would be giving merited recognition to their active patriotism and loyalty to home and nation.

A communication from Hon. J. H. Small, Representative and Chairman of the committee on Rivers and Harbors, House of Representatives, asking for detailed information dealing with the subject of river development was read and referred to the River Improvement Division.

A communication from President Robert Vaughn, of the State Chamber of Commerce, and H. H. Cherry, Chairman of Publicity and of the Speakers Bureau, State Council of Defense, extending the local Chamber of Commerce an invitation to have representation at the Kentucky War Conference to be held in Louisville January 15 and 16, were read. Upon motion, President S. F. Reed, Director of State and Federal Affairs, W. B. Ball, Jr., and Secretary Dodds were elected a committee to represent the organization together with as many of the members as could conveniently arrange to attend.

Several of the Directors expressed their appreciation of the work that is being done by the organization and the plans laid for future activities.

VISIT CINCINNATI SCHOOLS

Dr. Edwin Matthews, Dr. W. C. Crowell and Superintendent W. J. Caplinger left yesterday for Cincinnati where they will visit the Manual Training Departments of various schools and purchase machinery and supplies for the Manual Training Department which will be opened in the Maysville High School next season.

Supt. Caplinger expects to attend to the installation of the Manual Training supplies and get all in readiness for the school term of 1918-19.

OUTPUT OF FLOUR MILLS TO BE BOUGHT BY U. S.

Washington, January 10.—To supply

the needs of the army and navy and those associated with the United States in the war, the Food Adminis-

tration will purchase from every flour mill in the country not to exceed 30 percent of its output. Out of the flour purchased, it was explained, the Food Adminis-

tration will retain at all times a reserve stock and will ship flour to any point where the local supply might be short.

"This measure is not taken with a view to diminishing supplies to the market," said an administration an-

nouncement, "but is to fundamentally further adequate handling of trans-

portation in respect to army, navy

and export requirements and a regular supply of flour for the associates in the war of the United States at favorable loading points, and to prevent congestion and inequalities in stocks of flour owing to transport diffi-

culties."

ROBERSON-GREEN

THE DAILY PUBLIC LEDGER

Monday, Fourth of July, Thanksgiving and Christmas
The Publishing Company, Mayville, Kentucky.
Telephone No. 40. Office—Public Ledger Building,
Kentucky, Postoffice as Second-class Mail Matter
Scrip Essential

Very terrible. No man with red blood in his veins
serious import, and yet there are worse things than
front and fighting for one's country. And one of the
it is worse is staying at home and failing in one's duty to
every possible way those who are fighting for us at the
we may stay at home and live—Exchange.

Win the war. This is the aim of every true American.
To do this we must meet the issues of the hour squarely in the
face and stand ready to do an yard everything Uncle Sam deems
best.

One of the essential things for a nation at war to do is to practice thrift.

The European nations, after three years of war, during which
time many great saving reforms have been accomplished, find it
imperative to practice these reforms with utmost care. Experts
have told us that there will be a world-wide shortage of foodstuff
unless strict economy is practiced by all.

That the United States is an extravagant nation is a well-known
fact. The American and British armies combined could live com-
front on the food wasted in this country. The au-
food is estimated at \$700,000,000, and while this
eat, yet it means less than 2 cents a day for each in-

with the waste of food comes the waste of time and man-
power into the manufacture of articles, which also affect
on's prosperity. There are many ways to save time and man-
power, and everyone should use their influence along these lines.
Sav-
erivation of time and materials means a great production.
At production of all far supplies is one of the needs of the hour
with this great productio-
the beginning of the end of the war
will loom in sight.

This war is being fought in Europe to prevent its being fought
in America. Unless it is won across the sea it will be necessary to
defend our own land.

National thrift is imperative now if the United States is to be
victorious in this war. Thrift on the part of every man, woman and
child—in public and at home. Don't waste anything. Save food
save time and save materials—and there will be sufficient supplies for
our soldiers and sailors, without allies, to win the war. Be a saver
and a saviour for your country.

ENGLISH FOR EVERYBODY

"The next thing that must be in the way of world efficiency,"
says the Los Angeles Times, "is to get rid of a lot of language
that are floating around in restraint of trade. It will be the mos-
difficult feat of all, but it must be done, just the same."

"This thing of every bunch of people across a river or a moun-
tain speaking a different language from their near neighbors is the
biggest handicap the world has to contend with today. Moreover
this surplus of languages is the one thing above all others that has
caused misunderstanding, wars, strategies, spoils, hell-raising and
hatreds generally."

As regards the iniquitous results of the present lingual chaos
it is easy to agree with the writer of this anti-Babel screed. We can
agree, too, with his conclusion that everybody in the world ought to
"speak United States." Quite aside from our natural predilec-
tion, a very good case can be made out for nominating English as
the universal language. It is already in the lead. It is said to be
simplest in construction. And it has a natural advantage in be-
ing made up so largely from other important languages, so that it is
easy to learn. But whether we can "put it over" is another ques-
tion.

The multiplication of tongues may be a disease, but races and
tribes and nations seem to have an insuperable fondness for their
own particular forms of the disease. With the exception of religious
language is perhaps the most durable heritage of human societies.
There are some 3,424 spoken languages or dialects in the world, and
every one of them is preferred to all others by those who speak it.
Moreover, to borrow Kipling's broad-minded verdict concerning
tribal lays, it may be that "every single one of them is right."

How are we going to substitute English—or American—for all
the other 3,424 varieties? The answer is, we're not. We can't do
it.

"The thing to do," announces the Times glibly, "is to make
yourself as nearly as possible a master of English, and then for
the other fellows to speak our language for their own good."

But the Germans tried that, and see how popular German is now
outside of Germany!

WHY NOT DRAFT THEM?

The Minnesota state forester, W. T. Fox, has been inspecting
conditions in Northern Minnesota where logging operations have been
greatly curtailed. The trouble is not shortage of labor. Mr. Fox
reorts that there is plenty of labor on the spot. He gives high wages
as the chief cause of all the trouble and delay.

Lumbermen are receiving more than twice as much money
they have in the past few years, and nearly five times as much as they
did in 1914.

The result is that the men need to work only a few days at
time to make all the money they want for a while. Then they go
work until the money's gone. The effect upon logging operations
obvious.

The same explanation has been given for the labor shortage
some of the shipyards. The men that are on the job won't work
steadily because they make enough in a day or two of steady work
to keep them through frequent vacations.

In the meanwhile expert workmen, electricians, etc., who were
making several dollars a day in civilian life before the war now work
in the various cantonments on privates' pay. They are drafted
men in the service of Uncle Sam.

The war demand for lumber is great. Why not draft an army of
lumber jacks, put them on regular soldiers' pay and let them serve
their country directly as soldiers do? If present conditions continue
to obstruct important work the government will surely take some
step toward extending the operation of the selective draft system.
And patriotic Americans will be glad of it.

Y. M. C. A. BUYS 150 TONS OF CANDY

Fifty tons of lemon drops, fifty tons of chocolate fifty tons of gumdrops! That is a big order or sweets with sugar as scarce as it is, but it represents a single purchase of the Y. M. C. A. for candy stock for its canteens and huts with the American army at home and abroad, according to information just received here. The boys in khaki love sweet things—and the Y. M. C. A. is almost the sole agency to supply them.

Even before Gen. Pershing recommended that the Red Triangle take over the management of the whole canteen system in France, orders had been placed for the entire output of a lemon drop factory and for the period of the war! This means about 15 tons a month for use in this country and abroad.

An official report of articles shipped to France for Uncle Sam's nephews during December alone includes the following: 75,000 tons of canned fruit; 480,000 dozen packages of crackers; 100 tons of sugar; three earloads of flour; 4,000 dozen tubes of tooth paste; 300,000 packages of chewing gum; 400 tons of milk, nut and sweet chocolate; 75,000 boxes of cough drops. The budget for the month approximated \$600,000.

The P. M. C. A. is it stated in the report, is shipping each month to France 8,000,000 sheets of letter paper and 4,000,000 envelopes. Supplies are sold to the men at practically their cost to the Y. M. C. A. stationery, however, is for free distribution.

When the troops move forward into the trenches, Y. M. C. A. supplies of chocolate and coffee, sandwiches and cocoas are passed out at no cost to the men.

Many of the supplies needed abroad are now being shipped overseas in trunks belonging to secretaries, who are allowed 300 pounds of baggage, but donate a share of their allotment to Red Triangle supplies for the soldiers.

TAKE GERMAN FLAG FROM POST OFFICE

New Haven, Conn., January 9—A large German flag was taken to police headquarters early today by a man who said he found it tied to a door of the postoffice. The flag has printed on it in large letters:

"Compliments of one German whom it took 30 United States hogs to whip. Deutschland Uber Alles" M. Von Hoogen.

The police say they have no information about the flag except that given by the man who brought it in. They are inclined to treat it as a joke. Postoffice officials knew nothing about it.

When ex-Ambassador James W. Gerard, of Germany, addressed a meeting of 14,000 persons in San Francisco recently, the price of admission was fixed at one pair of usable shoes, either new or old, the same to go to war victims of the allied nations.

A MOST ASTOUNDING OFFER

The kind you seldom hear of these days during bargains days now to January 30th only we offer you

The Daily Commercial Tribune, Cincinnati's only real morning paper, having a regular yearly as low as \$3.00) and

The Public Ledger, both for one year at the remarkably low price of \$4.50.

Also, glance at the following extra combination offers:

WOMAN WORKS 15 HOURS A DAY

Marvelous Story of Woman's Change from Weakness to Strength by Taking Druggist's Advice.

Peru, Ind.—"I suffered from a displacement with backache and dragging down pains so badly that times could not be on my feet until it did not seem as though I could stand it. I tried different medicines without any benefit, and several doctors told me nothing but an operation would do me any good. My druggist told me of Lydia E. Pinkham's Vegetable Compound. I took it with the result that I am now well and strong. I get up in the morning at four o'clock, do my housework, then go to factory and work all day, come home and get supper and feel good. I don't know how many of my friends I have told what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. ANNA METERIANO, 36 West 10th St., Peru, Ind.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

PRESIDENT SUPPORTS WOMAN SUFFRAGE

Advises Committee to Pass Amendment As "Act of Justice"—Suffrage Champions See Certain Victory for the Cause as Result of President's Appeal to Congressmen.

Washington, January 9—President Wilson tonight threw his support to the federal amendment for woman suffrage.

On the eve of a vote on suffrage in the House, twelve Democratic members called at the White House with word that many of their colleagues wanted advice from the head of their party as to the position they should take. There was a conference of forty minutes, the result of which was described in this statement, dictated by the President himself and made public by the delegation:

"The committee found that the President had not felt at liberty to volunteer his advice to members of Congress in this important matter, but when we sought his advice he very frankly and earnestly advised us to vote for the amendment as an act of right and justice to the women of the country and of the world."

In these few lines, suffrage champions saw certain victory where a few days ago most of them privately were conceding defeat. A large majority of the Republicans in the House have been counted upon to support the amendment and enough Democrats are committed to assure a close vote. With the weight of the President's influence to swing doubtful Democrats, Representatives Raker, chairman of the suffrage committee, jubilantly predicted tonight that the necessary two-thirds vote would be exceeded by fifteen or twenty votes.

Opponents of suffrage were claim-

ing a safe margin against the amendment during the day in spite of intonations from the suffragists that a trump card was yet to be played. There were no formal predictions from the opponents tonight, but a tremendous fight is promised.

The news of the President's action as a complete surprise to nearly everybody in the capital, though some of the suffrage leaders have insisted for a long time that the President was with them and would tell anybody who asked him. Until now in all public utterances the President has held to the view that suffrage was a question to be determined by the individual states and not by federal action.

START THE DAY RIGHT WITH A GOOD BREAKFAST

(U. S. Department of Agriculture—U. S. Food Administration)

Fruit, Cereal, Milk—these make a meal—nourishing, easy to cook, good, cheap, of foods the Government asks us to eat.

Use Fruit

Fruit helps to keep your body in good health and to prevent constipation.

Use fresh fruit when possible.

Use prunes, dried apples, dried apricots. Soak them in water over night and cook them long enough to make them tender.

Use dates or raisins. These are good added to the cereal ten minutes before taking it from the stove. Then you will not need sugar.

Use ripe bananas with dark skins. Bananas with greenish-yellow skins are hard to digest unless cooked.

Use Cereals

Corn-meal mush, oatmeal, rice, hominy (grits).

These are much cheaper than the "ready-to-eat" breakfast foods. A "ready-to-eat" breakfast food may cost 15 cents for a big package, but if the packages contains only one-quarter pound 60 cents a pound for cereal! This is eight or ten times as expensive as corn meal at 6 or 7 cents a pound. Look for the weights printed on the package and get the most for your money.

Corn-meal mush and oatmeal are good only when well cooked. Many people use too little salt and don't cook them long enough.

To cook corn-meal mush for five use 1½ cups corn meal, 2 teaspoons, salt (level), 5 or 6 cups water. Bring salted water to a boil. Stir in the corn meal slowly. Don't let it lump. Cook it at least 30 minutes. It is better cooked for three hours, or overnight. Use a double boiler on the back of the stove, or a fireless cooker.

Montreal launched a concrete boat

This is the first of a series on foods. They will help you to plan and cook meals at a low cost. They show many and varied uses for the foods the Government asks us to use.

The next of the United States Food articles are:

No. 2. Do You Know Corn Meal?

No. 3. A Whole Dinner in One Dish.

No. 4. Choose Your Food Wisely.

No. 5. Make a Little Meat Go a Long Way.

No. 6. Do You Know Oatmeal?

No. 7. Food for Your Children.

No. 8. Instead of Meat.

Keep these. Refer to them. Show them to your neighbors.

CONCRETE BOATS MAY NAVIGATE MISSISSIPPI

That the commerce carriers of the near future which are being depended upon to relieve railroad congestion and contribute materially to the winning of the war, may be built of concrete instead of wood, as in the past, is proven by one of the interesting exhibits that will feature the National Motor Boat Show in New York City January 19th to 26th.

This exposition in which war and commerce will take precedence this year over pleasure, in motor boating, draws many interesting exhibits from all sections of the country, not the least of which will be the concrete boat belonging to the United States Naval Reserve at Chicago.

This boat is built of concrete and was constructed by Walter Dowsey of Iron River, Michigan, who lacking suitable wood from which to build a pleasure boat determined to experiment with concrete. He arranged an iron framework and forms, and the result of his experiment was so successful and attracted so much attention that he was induced to present it to the Naval Reserve at Chicago, where it has been in active use for several months. Owing to its oddity and the great future possibilities in respects it was decided to place the craft on exhibit at the National Show as one of the interesting developments of 1918.

With the development of inland waterways comes the question of the material from which the big freight carrying barges and towboats are to be constructed and it is known that the shipping board is now experimenting with concrete as a substitute for wood in the building of barges and hulls for coastwise as well as inland traffic.

Montreal launched a concrete boat

CRYING FOR HELP

Lots of It in Maysville But Daily Growing Less.

The kidneys often cry for help. Not another organ for the whole body more delicately constructed; Not one more important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble.

It is often the kidney's cry for help. Read what Doan's Kidney Pills have done for overworked kidneys.

Read what Doan's have done for Maysville people.

Mrs. E. Sphar, E. Second and Wall Sts., Maysville, says: "Whenever I have heard anyone complain of their kidneys, I have never seen Doan's Kidney Pills fail to help them. I have been greatly benefited by them myself. At times my back has ached and I have suffered from lameness through the small of my back. When I have been in that way, I have used a box or so of Doan's Kidney Pills, which I get at Chanslor's Drug Store. They have always quickly removed the trouble."

Mrs. Sphar is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Sphar has, the remedy backed by home testimony 600 all types. Foster-Milburn Co., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

Use Milk

Milk is an excellent food. A quart of whole milk gives as much nourishment as one pound of lean meat.

Children especially need it to make them grow strong and keep well. It is good for grown people, too. Give each child at least a glass for breakfast. Drink it hot or cold, or use it on the cereal, or make it into cocoas. Even at a high price milk is a cheap food for children.

No Coffee and Tea for Children

They are not foods! Let the grown people have them if they want them, but do not give the children even a taste. The children's drink is milk.

MONEY IS LOST

By selling your tobacco in fat stem condition. Don't bring it to market until its condition is good.

Prices Have Been Satisfactory

and up to expectations on all grades of Tobacco in good condition.

We Know

Because we have sold most of the Tobacco to date. Careful handling of Tobacco pays. That is the reason we always handle it so carefully; and, that is the reason why the most of it is sold at the

THE HOME

WE GUARANTEE TOP OF MARKET.

last November and one has been building at Redwood City, Cal. for some time. It has been announced that this is to be used in trans-Pacific service. Another statement was that it will be taken over by Mr. Hurley's board.

This boat is 330 feet long, has a forty-six-foot beam and will be launched very soon according to announcements heretofore made.

We make fifty-five different kinds of candy. Order early for Christmas. A box of our fine candy will be sure to please your son, sweetheart or brother, if at some training camp.

With good roads you save at least twenty cents per ton per mile on all material hauled over the roads. Figure what good roads will save you in one year.

You will receive one hundred times more from good roads than your taxes will be to build them.

Ask any man living along a good road if he would be willing to lose the road if his taxes to build it were refunded to him. His answer will be "No." What should convince you.

The high cost of living will be reduced in roads are built so that the products of the farm can be hauled to market cheaply.

Who pays the cost of hauling food stuffs over bad roads?

There is not a legitimate argument against good roads—build more of them.

Personals

Evans of Flemingsburg was a guest visitor in this city Thurs-

Mr. John Will Bradford, of the Georgetown (O.) News-Democrat, is a visitor in the city.

Mrs. O. L. Bartlett and two sons have returned home from a visit to relatives at Peebles, Ohio.

Miss Alice Kerr Hood has returned to her home in Flemingsburg after a short visit with her cousin, Miss Carroll Matthews, of East Third street.

WHITE ELEPHANTS AND WAR

Have you a white elephant in your home? Of course you have, so has every one. Send it to Mr. Buckley's tire repair shop, on Sutton street, next to Myall & Calvert stable, and notify Mrs. R. B. Lovel, chairman of the rummage sale, which will take place January 18 and 19, to provide funds for war relief work.

Anything that you do not wish in your home, or are tired of, or of which you have a superabundance, constitutes a white elephant. Rags, rubber, old iron, junk of all description; that vase sent by a distant relative (but sure of the distance), that somehow never fitted into your scheme of decoration, may be the very bit desired by some one else. Pictures whose faces you longed to turn to the wall; but somehow never did, may find a congenial home through this sale. On the other hand, you may find the very thing you have longed for, for less than a song. So rummage around and send something. Anything is acceptable from cut-glass to discredited linings. Only it is suggested that really useful garments be sent to the city mission, and those of a more flimsy and ornamental nature be reserved for this sale.

DAVIS-TEEGARDEN

Mr. Charles A. Teegarden, of Brooksville, and Miss Jewel L. Davis, of this city, were united in marriage at the Christian Church parsonage by Rev. A. F. Stahl yesterday afternoon. Miss Nannie Busby and Ivin Case were the attendants. After a short stay in Cincinnati Mr. and Mrs. Teegarden will make their home in Brooksville where the groom has a position in the bank.

REPORT MADE

Of Work Done in Maysville During Past Seven Months By Health Campaign and Sanitary Survey.

The following is a brief statement of some of the work done in Maysville and Mason county during the past seven and one-half months by the health campaign and sanitary survey.

Talks and lectures given with st-

epicene, 50.

People attending (approximated),

9,045.

Schools visited and talks made, 15.

Health bulletins and other litera-

ture distributed (U. S.), 7,010.

State bulletins (Ky. sanitary privy

and communicable disease), 3,029.

Sanitary privy built in city and

county, 306.

Cisterns and water supplies im-

proved, 25.

Cases of scarlet fever reported in

county, 17.

Cases of diphtheria in county, 6.

Homes and school buildings (in

county) fumigated, 9.

Visits made to homes outside city

of Maysville, 2,355.

Homes outside city of Maysville

visited two or more times, 402.

Homes visited in Maysville, 1,45

Specimens collected and exam

for intestinal parasites, 487.

Case of hookworm disease foun

result of these examinations, 22.

Specimens positive to other int

estinal parasites (worms), 183.

Number of newspaper articles pu

lished, 77.

Homes visited outside Maysville

(visiting nurse department), 543.

Follow-up visits to homes (vis

iting nurse department), 38.

Visits to schools and talks made

(visiting nurse department), 63.

Eighty-five per cent of all

schools in the county, both white

colored, have installed Kentucky

sanitary privy or are supplied with

closet and sewer.

Typhoid serum has been kept

hand at all times and adminis

tered to all that would take it.

Many lectures and talks have been

made on preventive disease, cover

typhoid, measles, whooping cough,

consumption, pneumonia, bowel trou

bles both in adult and infant, scar

fever, etc.

A week of "Baby Clinics" was held

at the dispensary conducted by Miss

Casey.

A demonstrating exhibit was held at

the Germantown fair.

An exhibit was put on at the corn

and tobacco fair demonstrating some

of the practical forms of sanitization

which constitutes a white elephant. Rags, rubber, old iron, junk of all descrip

tion; that vase sent by a distant rel

ative (but sure of the distance), that

somewhat never fitted into your

scheme of decoration, may be the very

bit desired by some one else. Pictures

whose faces you longed to turn to the

wall; but somehow never did, may find

a congenial home through this sale.

On the other hand, you may find the

very thing you have longed for, for less

than a song. So rummage around

and send something. Anything is ac

ceptable from cut-glass to discred

ited linings. Only it is suggested that

really useful garments be sent to the

city mission, and those of a more

flimsy and ornamental nature be re

served for this sale.

"Hunter's dump" was oiled during the mosquito season. Efforts are being made to put "Hunter's dump" in a sanitary condition, with the assistance of the state board of health.

In all of our work we have had the co-operation of the medical profession of both city and county, the health league and the people. The people must realize that the work of the health campaign during the past six months is only a beginning, and that health work never has an ending. A good start has been made, and it is to be hoped that Mason county's sanitation will never cease, but continue over forward toward the goal of 100 per cent sanitation.

J. S. LOCK,
Full-time Health Officer Mason County.

SMALLPOX EPIDEMIC

At Manchester, Ohio—25 or 30 Cases Reported—Public Gatherings Are Banned.

The Manchester (O.) Signal has the following concerning the smallpox epidemic at that place:

Smallpox!

Now don't get excited and forget yourself and run right into it, but remain cool, talk very little concerning the disease until you know what you are telling is the truth and above all pay no attention to rumors heard on the streets, for you can hear almost everything in less than thirty minutes.

All homes where there is a case have been labeled "SMALLPOX" and the family quarantined, while every precaution is being taken to head off new cases develop almost every day; and just where it started is a mystery, but it is presumed that a stranger slipped into town and out again and left the disease in his wake.

This epidemic means no interruption in business and the public need have no fear in coming to Manchester to do their trading as usual. The schools and churches have been closed, all children ordered vaccinated and all public gatherings forbidden, and with a little precaution and by using good common sense as your guide there is no cause for alarm and much less cause for so many street rumors, which has a tendency to keep the excitement up and spreading.

At the time of going to press Wednesday noon 15 homes were quarantined and between 25 and 30 cases reported. The majority of the cases are in light form.

A demonstrating exhibit was held at the Germantown fair.

An exhibit was put on at the corn and tobacco fair demonstrating some of the practical forms of sanitization which constitutes a white elephant. Rags, rubber, old iron, junk of all description; that vase sent by a distant relative (but sure of the distance), that somehow never fitted into your scheme of decoration, may be the very bit desired by some one else.
